INSTALLATION

IMPORTANT - Read These Instructions FIRST.

- Check parts supplied
- Use washers only where indicated
- 2 person assembly recommended
- Assembly recommended on concrete slab or foundation kit and secured with dyna bolts
- Apply sealant along inside of base rail to prevent water seepage

LEGEND

NOTE: SIZE IN FEET NOMINAL ONLY

SAFETY

Sharp edges - Handle with care. Wear protective gloves.

Choking Hazard - Contains small parts.

TOOLS & FIXINGS (NOT INCLUDED)

MONTÁŽ

DÔLEŽITÉ - Najprv si prečítajte tieto pokyny

- Skontrolujte dodané diely
- Použite podložky len tam kde sú vyznačené
- Pri montáži sa odporúčajú dve osoby
- Montáž sa odporúča na betónovej platni alebo podkladovej výbave, ktorá je zaistená skrutkami Dyna
- Naneste tiesniaci prostriedok pozdĺž vnútornej strany hlavného nosníka aby sa zamedzilo presakovaniu vody

BEZPEČNOSŤ

Ostré hrany - Zaobchádzajte opatrne. Použite ochranné rukavice.

Risk zadusenía. Obsahuje malé časti

POPIS

NÁRADIE & SPOJOVACÍ MATERIÁL (NEZAHŔŔNA)

FELSZERELÉS

FONTOS - Olvassa el ezeket az utasításokat ELŐBB

- Ellenőrizze a kapott alkatrészeket
- Csak a megjelölt helyen használja a csavaralátétet
- Javasoljuk, hogy 2 személy szerelje össze
- Javasoljuk, hogy betonlapon vagy alapozó készleten szerelje össze és dyna csapszeggel erősítse meg
- Tegyen tömítőszert az alaprács mentén belül, hogy ne szivárognon víz

MAGYARÁZÓ FELIRAT

BIZTONSÁG

Éles szélek - Kezelje óvatosan. Viseljen védő kesztyűt.

Fulladásveszély. Kís.részecskéket tartalmaz

SZERSZÁMOK & KELLÉKEK (EZT NEM TARTALMAZZA)

INSTALOVÁNÍ

DŮLEŽITÉ - Přečtěte si NEJPRVE tento návod.

- Zkontrolujte dodané součástky
- Používejte kovové podložky pouze tam kde je to naznačené
- Doporučujeme, aby instalaci prováděli 2 osoby
- Doporučujeme provést sestavení na betonové desce nebo základové soupravě a zabezpečit šrouby Dyna
- Naneste těsnící hmotu podél vnitřního spodního hrzení, aby tam nezatékala voda

BEZPEČNOST

Ostré hrany - Zacházejte s opatrností. Noste ochranné rukavice.

Nebezpečí udušení. Obsahuje malé součástky.

POPISEK

NÁRADÍ & SOUČÁSTI (NENÍ ZAHŔŔUTO)

A SOLID FOUNDATION IS RECOMMENDED

This page shows recommended method and dimensions. Make sure site is firm and level, and water drains away from site.

DOPORUČUJEME PEVNÝ ZÁKLAD

Tato stránka ukazuje doporučenou metodu a rozměry. Zajistěte, aby místo bylo pevné a v rovině a voda odtékala z místa.

SZILÁRD ALAPOZÁST JAVASOLUNK

Ez az oldal mutatja az ajánlott módszert és a méreteket. Győződjön meg, hogy a hely szilárd és egyszintű és hogy a víz a helyről elfolyik.

A

Állapítsa meg, hogy milyen nagy betonlap/ alapozás szükséges. (Lásd az A ábrát)

BETONLAP MÉRETEI

A ÁBRA

C

Zsaluzatnak 100 milliméter szélesnek és vízszintesnek kell lennie (C ábra)

C ÁBRA

B

Győződjön meg, hogy a betonlap helye négyszögletes gondoskodva arról, hogy az átlós sarokméretek egyenlőek legyenek (B ábra)

B ÁBRA

MÉRET "X" = MÉRET "Y"

D

Tegyen építési plastikot a földre, hogy megakadályozza a nedvesség felszivárgását (D ábra)

D ÁBRA

E

Tegye az F52-es erősítő acélhálót az építési plastikra, gondoskodva arról, hogy az acélháló a zsaluzat körülbelül fele vastagságáig legyen emelve. (E ábra) öntse ki a betont. Hagyja 5 napig száradni.

E ÁBRA

F52-ES ERŐSÍTŐ ACÉLHÁLÓ

ZSALUZAT

A ZSALUZAT KÖRÜLBELÜL FELE VASTAGSÁGÁIG EMELT HÁLÓ

ODPORÚČA SA PEVNÝ PODKLAD

Táto strana znázorňuje odporúčaný postup a rozmery. Uistite sa, že stavebná plocha je pevná a rovná a voda z nej odtéká

A

Určte veľkosť betónového panelu/ podklad je nutný (Vid' nákres A)

ROZMERY PLATNE

NÁKRES A

C

Debnenie musí byť 100mm hrubé a rovné (Nákres C)

NÁKRES C

B

Uistite sa, že plocha platne má tvar štvorca tým, že rozmery uhlopriečok sú rovnaké (Nákres B)

NÁKRES B

ROZMER "X" = ROZMER "Y"

D

Položte plastovú fóliu na dno aby sa zamedilo vzniku vlhkosti. (Nákres D)

NÁKRES D

E

Upevňujúce oceľové pletivo F52 umiestnite na vrch plastovej fólie tak aby oceľové pletivo bolo vyzdvihnuté nad fóliou do výšky približne polovičnej hrúbky debnenia. (Nákres E). Zalejte betón. Nechajte tvrdnúť 5 dní.

NÁKRES E

UPEVNĽUJÚCE OCEĽOVÉ PLETIVO F52

DEBNENIE

PLETIVO VYZDVHNUŤ PŘIBLIŽNE O POLOVICU HRŮBKY DEBNENIA

- GB** Lay panel on non-scratch surface and carefully form angle of 90 degrees by slowly working from the centre outwards along panel and bending it as you go. Do not over bend panel.
- BA** Položite panel na površinu otpornu na ogrebotine i pažljivo formirajte ugao od 90 stepeni mičući se polako od centra prema van uz ploču i savijajući je pri pomicanju. Nemojte previše savijati panel
- BG** Положете панела на гладка повърхност и внимателно формирайте ъгъл от 90 градуса, като бавно, работите от центъра на вън, по дължина на панела и същевременно го огъвате. Не огъвайте прекалено панела.
- CZ** Položte panel na neškrabavý povrch a pečlivě vytvořte úhel 90 stupňů tak, že budete pomalu a pracovat ze středu ven po panelu a ohýbat ho jak budete pokračovat. Neohněte panel přespříliš.
- DE** Die Tafel auf eine kratzfeste Oberfläche legen und vorsichtig und langsam von der Mitte nach außen der Länge nach in einen 90° Grad Winkel biegen. Die Tafel nicht zu weit verbiegen
- DK** Læg panelet på en ridsefri overflade, og lav forsigtigt en 90 graders vinkel ved langsomt at arbejde fra midten og udad langs panelet og bøj det undervejs. Bøj ikke panelet for meget.
- EE** Aseta paneel mitte-kriimustavale pinnale ja moodusta täpselt 90-kraadine nurk, liikudes aeglaselt keskelt väljapoole paneeli painutades. Ära paneeli üle painuta.
- ES** Colocar el panel sobre una superficie que no raye y formar con cuidado un ángulo de 90 grados doblando lentamente el panel desde el centro hacia los extremos. No doblar en exceso el panel

- FI** Aseta paneeli naarmuttomattomalle pinnalle ja muodosta huolellisesti 90 asteen kulma muokaten ja taivuttaen paneelia hitaasti keskialueelta reunoja kohti. Älä taivuta paneelia liikaa
- FR** Poser le panneau sur la surface anti-rayures et former soigneusement un angle de 90 degrés à partir du centre et en allant vers l'extérieur du panneau pour le courber au fur et à mesure. Ne pas trop courber le panneau
- HR** Položite ploču na površinu otpornu na ogrebotine i pažljivo oblikujte kut od 90 stupnjeva polako se pomičući od sredine prema vani duž ploče i savijajući je prilikom pomicanja.
- HU** Tegye a panelet olyan felületre, amelyik nem karcos és óvatosan alakítsa ki egy 90 fokos szöget közepéről lassan kifelé haladva a panel mentén és azt hajlítva ahogyan halad. Ne hajlítsa a panelet túl.
- IT** Posare il pannello su una superficie non-graffiante e formare con cura un angolo di 90 gradi, lavorando lentamente lungo il pannello dal centro verso l'esterno, piegandolo come procedi. Non piegare troppo il pannello.
- NL** Leg paneel op een glad oppervlak en vorm geleidelijk en zorgvuldig een hoek van 90 graden door van binnen naar buiten uit het paneel te verbuigen. Buig het paneel niet te ver
- NO** Legg panel på overflate som ikke skraper, og bøy forsiktig til 90 graders vinkel. Begynn på midten og fortsett sakte utover sidene etter hvert som panelet bøyes. Ikke bøy panelet for hardt
- PL** Połóż panel na niepodatnej na porysowanie powierzchni i ostrożnie utwórz kąt 90°, powoli pracując od środka ku przegębom wzdłuż panelu, zginając go stopniowo. Nie przegnij panelu.

- PT** Deite o painel sobre uma superfície lisa e cuidadosamente forme um ângulo de 90 graus, trabalhando lentamente a partir do centro para fora ao longo do painel e dobrando-lo aos poucos. Não dobre o painel excessivamente
- RO** Așezați panoul pe o suprafață neabrazivă și cu atenție formați un unghi de 90 de grade lucrând încet dinspre centru spre exterior de-a lungul panoului și îndoindu-l pe măsură ce lucrați. Nu îndoiti panoul mai mult decât este necesar
- RS** Pоставите таблу на површину која је неће огрепати и пажљиво оформите угао од 90 степени тако што ћете полако радити од средине ка споља дуж табле и савијати је као што радите. Немојте превише савијати таблу
- RU** Положите панель на нецарапающуюся поверхность и аккуратно образуйте угол в 90 градусов, медленно работая от центра наружу вдоль панели, сгибая ее по мере продвижения. Не перегибайте панель.
- SE** Lågg panelen på en icke-scratch yta och noga skapa en vinkel på 90 grader genom att långsamt arbeta från mitten och utåt längs panelen och bøj den försiktigt. Överböj inte panelen.
- SI** Ploščo položite na neabrazivno površino in skrbno napravite kot 90 stopinj, tako da jo počasi dvigate in prepogibate od srede plošče. Pazite, da plošče ne prepognete prekomerno
- SK** Panel položte na hladký povrch a opatrne vytvorte 90° uhol pomalým vypracovaním zo stredu smerom von pozdĺž panelu a počas toho ho ohýbajte. Panel príliš neprehýnať.
- TR** Paneli çizilmez yüzeyin üzerine yerleştirin ve dikkatli bir biçimde panel boyunca merkezden dışarıya doğru çalışarak ve yavaş yavaş bükerek 90 derecelik açı yaratın. Paneli fazla bükmeyin.
